

FORESTS ARE TOO PRECIOUS TO LOSE. FORESTS PROVIDE GOODS AND SERVICES LIKE:

Food

Paper

Carbon
storing

Wildlife
habitat

Recreation

Medicine

Lumber

Clean
air

Clean
water

Biodiversity

SCIENTISTS AND EXTENSION EDUCATORS AT LAND-GRANT UNIVERSITIES ACROSS THE COUNTRY ARE WORKING TOGETHER TO HELP SUSTAIN OUR FORESTS BY:

Managing
pests

Managing
diseases

Preventing
forest fires

Teaching
and training
future
foresters

Preserving
biodiversity

Supporting
communities
that rely on
forest tourism

Providing
guidelines for
sustainable
harvest

Raising
awareness
through outreach
materials and
events
